

I am concerned about the possible impact that the expansion of LPFM stations might have on my local K-LOVE station (106.7 FM). This station provides the only local source of clean, Christian music, news and information. I believe that this station and it's program content provides our community with a valuable service that is not available on other local stations and it provides information about local events and services that cannot be obtained for "national", syndicated stations. There is so little programming available elsewhere that is uplifting and possitive. K-LOVE gives us just that. It's a medium for sharing christian beliefs and values that I feel need to be shared with as many people as possible. And I do support K-LOVE financially, so my money is where my mouth is. Please do not make changes that would allow an LPFM station to have priority over my 106.7 K-LOVE station.

Thank you for your attention.
